

19:13:24 From iPhone : Did RP just say that PGUSD has a fb page now?
19:13:34 From Shannon McCarty : yes
19:14:06 From iPhone : Toot toot PGUSD. What is the page name? I don't see it.
19:14:16 From Elliott H : sorry it got choppy on the latest word from the county. would someone be willing to type?
19:14:24 From Matthew Binder : FB and Twitter will be brought out of "hibernation".
19:14:29 From Stephanie Lip : FB - Pacific Grove USD
19:15:12 From Jonathan Mejia : The county has mentioned that the "lock down" is the same as the shelter in place Monterey county currently has in place
19:15:37 From iPhone : Thank you Matt Binder for bringing PGUSD up
19:15:44 From Matthew Binder : Coming tomorrow... expecting from FeEx
19:15:58 From Elliott H : thank you
19:16:01 From iPhone : to current speed. Social media is where our families ARE and we need to meet them there.
19:16:44 From BuckRoggeman : Checked in with our K team today. All but 3-4 in each class had checked in. Teachers are working real hard and adjusting, but we have made contact with most classes.
19:17:03 From ERINH : My staff and I created "packets" of materials for our Preschool SpEd students. This is in addition to what I am doing daily on Google Classroom
19:17:06 From Sean Roach : PGMS: Entirely Digital, curriculum and Google Classroom/Hangout
19:17:08 From BuckRoggeman : We will contact by phone to help them connect if necessary. FG
19:17:26 From Jonathan Mejia : Pacific Grove USD
19:17:29 From Jonathan Mejia : fb
19:18:08 From Kari Serpa : I am so very proud of our district. Everyone is working so hard. We are feeding kids. We are getting kids computers. Our teachers are working long hours making sure all kids are accounted for, keeping learning alive, meeting in chat rooms. Our counselors are doing meet ups with kids. Our SPED teachers are dropping Read 180 head sets off at houses and differentiating instruction, our Music teacher is sending tunes to practice. If a kid needs something, we have a person working on it. It is absolutely amazing. But it is hard. Everyone is working very hard. We are all so tired. And shout out to Andrew Bradley and Carey Parker and all our tech folks helping and our people feeding kids!
19:18:21 From Ana Silva : We have amazing teachers and administrators!!!
19:18:53 From BuckRoggeman : Forest Grove is holding grade level meetings today and tomorrow. We will check in again next week early to judge or progress. Google meet discussions have been helpful. Excellent post by K. Serpa explaining our efforts.
19:18:53 From Elliott H : 2nded
19:18:56 From Matthew Binder : FB is up now... Twitter will also become much more active in the coming days.
19:20:04 From beth : our experience online with Forest grove teachers have been awesome! I have a kinder too!
19:20:07 From Shannon McCarty : We would like the community to know that teachers are working very hard and many more hours than our typical days. Please remind the community that we are going slowly

19:21:57 From Matthew Binder : Go slow, keep it simple.

19:21:57 From Karinne Gordon : To piggyback on Jon's comment, teachers are often the first-line of "counseling" for our students and their families. So, yes the slower pace is appreciated!

19:21:58 From Shannon McCarty : thank you Ralph

19:22:39 From Teacher : Thank you so much to our admin team for supporting all of our students, families and community of PG.

19:23:06 From Mary Ann Fort : My students appreciate the slower pace to begin and time to talk with classmates on Hangouts.

19:23:40 From Larry Haggquist : Indeed, my heart goes out to this year's seniors...including Mr. Bell :-)

19:24:05 From Karinne Gordon : Ditto what Larry said.

19:24:22 From Kari Serpa : Thank you for supporting my kid, Ms. Fort!

19:24:43 From Mary Ann Fort : Thank you

19:24:56 From Matthew Binder : We've been checking out multiple devices to multi siblings households.

19:25:06 From Teacher : Who do families contact when they have challenges with the chromebooks?

19:25:30 From Matthew Binder : Parents contacts teacher, teacher contacts site tech.

19:25:36 From Sarah Chavez : Ivy Kong has been amazing with her group of students. She has connected with them and made them laugh. It is clear she has worked on establishing a positive relationship with her students prior to distance learning. Hat's off to her.

19:25:57 From Teacher : Thank you, Ralph.

19:26:15 From Mary Ann Fort : That's IVY! The "What can I do for you?" person.

19:27:16 From Ana Silva : I can also support anyone who needs a Spanish translator

19:27:37 From Matthew Binder : Both Ivy and Brice are amazing!

19:27:55 From Sean Roach : Here-here!

19:30:10 From Brian Wood (Woodie) : Has the district been getting direction from the Monterey County Office of Education and/or the Monterey County Emergency Operations Center? Does PGUSD have a rep at the Emergency Operations Center now that the level of emergency has been raised to the current level? Thanks--keep up the great work.

19:30:37 From Mrs. Cina : Please speak louder into the microphone.

19:31:04 From Elliott H : I have 2 requests: an effort to prioritize work moving forward as this drags on longer (critical v important v optional). 2nd - it's easy to rely too much on technology given circumstances. alternative (e.g. outdoor) options would be greatly appreciated.

19:32:59 From Mary Ann Fort : I agree, too much technology, my students want less screens and creative options which I promised to work on this weekend.

19:33:28 From Jonathan Mejia : should be good to go shane

19:33:34 From Elliott H : thank you!

19:36:42 From Teacher : I would like to see us look into a partnership for MPC courses as Carmel, Monterey, Marina and other surrounding districts offer: US History and other core classes. Will we be doing this?

19:37:08 From Shannon McCarty : I agree

19:37:13 From Matt Bell : The issue was that MPC required at least a masters

19:37:44 From Matt Bell : oops. A masters degree in the area of instruction. Most teachers have a masters in education rather than a specific subject.

19:37:50 From Elliott H : agree x3!

19:38:57 From Teacher : That is correct Shane! Thank you!!

19:39:23 From Ana Silva : I have a public comment

19:40:23 From Matthew Binder : @MaryAnnFort and any others interested in this topic:
https://www.screenagersmovie.com/search?q=%20Screen%20time&f_collectionId=56a11f4089a60a4bbcb9ce0b

19:41:18 From Teacher : AP is not the same thing, less colleges are recognizing and giving credits for AP courses.

19:41:58 From Ana Silva : I know that colleges are giving credit for college courses that our students can complete as HS students.

19:42:29 From Shane Steinback : Thank you Madam President and Trustees

19:43:07 From Matt Bell : Other issues include that these are college classes and therefore parents do not get any information regarding grades. They have to rely on their kids letting them know. Any poor grades are permanent college record. I think this is a better option than AP courses, nonetheless.

19:43:12 From Shannon McCarty : about the census item?

19:43:30 From Shannon McCarty : none from me

19:43:43 From Ana Silva : I agree with you Matt.

19:51:20 From Shannon McCarty : we can't hear again

19:51:22 From Karinne Gordon : I cannot hear John

19:51:36 From Teacher : we can not hear john

20:01:24 From Shannon McCarty : did she just say one less Kinder?

20:04:58 From Shannon McCarty : Does everyone else have the same feedback vibrating when she is talking

20:09:07 From KK : Shannon, yes, it's very hard to hear her. And, yes, she said not filling the kinder position.

20:09:17 From Hetal : I do sometimes. It goes in and out.

20:11:24 From Shannon McCarty : very hard to hear

20:11:47 From PGUSD family member : I would hope there's more than one broker they can look at for better healthcare options.

20:11:57 From Karinne Gordon : Very hard to hear everyone.

20:12:08 From Shannon McCarty to Jonathan Mejia(Privately) : there is something vibrating in the video...like a speaker feedback

20:12:25 From Shannon McCarty to Jonathan Mejia(Privately) : worse

20:12:37 From Shannon McCarty to Jonathan Mejia(Privately) : better

20:13:04 From Shannon McCarty to Jonathan Mejia(Privately) : not better

20:13:07 From Jonathan Mejia to Shannon McCarty(Privately) : It happens when we unmute Cristy

20:13:11 From Brian Swanson : I think the issues with everyone hearing are related to the dynamics of the room. It is not ideal. Apologies to all for that

20:13:21 From Jonathan Mejia to Shannon McCarty(Privately) : but we've been missing when she chimes in .

20:13:27 From Jonathan Mejia to Shannon McCarty(Privately) : we muted her

20:13:33 From Jonathan Mejia to Shannon McCarty(Privately) : hopefully it gets better

20:13:34 From Shannon McCarty to Jonathan Mejia(Privately) : don't unmute her...we can't hear until she is muted

20:14:09 From Shannon McCarty to Jonathan Mejia(Privately) : it is very hard to understand

20:15:16 From Shannon McCarty to Jonathan Mejia(Privately) : we can hear Christy perfectly

20:16:10 From Shannon McCarty : We cannot understand what was said after Christy talked

20:16:42 From Shannon McCarty : yes

20:17:21 From Jonathan Mejia to Shannon McCarty(Privately) : unmuted

20:18:37 From MATT KELLY : Kind of weird. I am hearing everything pretty good. Just some feedback for moving forward.

20:19:19 From KK : Thank you Shannon!

20:19:31 From ERINH : THANK YOU, SHANNON!!

20:20:05 From Shannon McCarty : Thank you

20:20:06 From Hetal : And our own children (learning) and families.

20:20:09 From Sean Keller : Thank you, Shannon. Our teachers are doing a great job with the adjustment!

20:20:47 From Carolyn Swanson & Buddy Boo Boo the Dog : from Parentland - we would love to be told that academics are important but not worth ANY OF US getting stressed about them. We don't want to see our teachers worried about having to meet any standards right now.

20:22:38 From BuckRoggeman : For teachers and parents, we want to maintain our connection and NOT add anxiety to anyone's life right now. We will instruct gradually, but the main goal is to connect, reflect, and encourage each other.

20:23:03 From PGUSD family member : I am thankful for the distance learning in place, it means my child will graduate his Senior year. Our teachers have been awesome.

20:23:13 From Carolyn Swanson & Buddy Boo Boo the Dog : Yes. What Buck said.

20:23:24 From Karinne Gordon : Thank you, Carolyn! We also recognize that this situation is super stressful for parents, as well. I love how our community is coming together in these uncertain times.

20:23:26 From dpegis : Thank you Buck!!

20:23:43 From Shannon McCarty : Thank you everyone...we will get through

20:25:04 From Carolyn Swanson & Buddy Boo Boo the Dog : Teachers and admin who are on the ground at sites and working so hard to feed kids who are out of school right now are simply UNSTOPPABLE. We are all so thankful for you.

20:25:31 From BMankey : We are so very proud of all of our employees! Thank you for your hard work!

20:26:31 From PGUSD family member : Agreed, Billie! There's a lot of unsung heroes working hard for our district/families

20:27:16 From Karinne Gordon : Yes, thank you Cristy!

20:27:20 From Carolyn Swanson & Buddy Boo Boo the Dog : Christy Dawson - I stand by my comments that I love your teacher voice and your advice on people speaking up. It's great to have you on the viewing end.

20:27:22 From ERINH : Thank you, Billie
